

Ardy Everts Hartley

I'm sorry it has taken a couple of weeks to respond, but I was in the midst of one of those viruses that has you coughing for 2-3 weeks and not able to think clearly. Yes, that stuff still goes around in sunny Southern California!

The biggest change in our lives is that our youngest son, Jay, and family which includes our only grandchildren (2 granddaughters) moved to Texas last summer, due to Toyota Headquarters move. We knew it was coming for 2 yrs, but when it actually happens, it is still an emotional time. We have been blessed to see them 3 times this past year, most recently for Shelby's high school graduation. We were so pleased to see her finish with high honors after having to change schools for her Senior year.

We enjoy traveling with our "land yacht" RV and last yr spent 2 mos. traveling to the East Coast and many points in between. We don't have a long trip planned right now, but a trip to Iowa sounds like a good idea for next year. We try to camp at the beach or in our local mountains every year as well.

I'm enjoying reading all the updates as I'm probably one of the few not on Facebook.
